Computer Science

Software Engineer

I offer a solid understanding of software development principles, and technical experience with application development. I am a quick study and able to work independently or as a part of a cohesive team. I bring a passion for research that allows me to master new skills, concepts and systems. I excel in fast-paced environments with my attention to detail and strong time management awareness.

EXPERIENCE

SALES ASSOCIATE   **2017 - 2019**

Wireless etc., Edmonton, Alberta

Provided multifaceted wireless solutions, including but not limited to Personal, Small Business, and Corporate solutions. Introduced members to new wireless technologies and accessories to provide complete solutions. Handled inventory management, and provided members with technical support for devices. Worked as a part of a team within a very tight space, ensured my work didn't interfere with the others.

SALES ASSOCIATE   **2015 - 2017**

OSL Retail Services, Winnipeg, Manitoba

Utilized exceptional time management skills to balance a demanding academic course load with responsibilities for providing top-quality customer service. Stimulated sales through referrals, and prospecting new clients. Also, provided troubleshooting for customers' existing devices to uncover, and resolve problems. Achieved daily, monthly, and quarterly targets assigned based on hours worked, and store traffic.

CUSTOMER SERVICE REPRESENTATIVE   **2014**

TD Bank Canada, Edmonton, Alberta

Assisted clients with their day to day banking needs in an effective manner. Assess clients banking needs, and suggested appropriate additional services. Provided customers with per-approved credit options such as overdraft protection, and credit cards. Scheduled meetings for clients with financial advisors at our location, as well as other locations using online tools.
